

During today's seminar we listened to Miguel Chucharalao, Hannah Fowler, Wilman Rodriguez, and Fernando Prado. The name of the seminar is the Day in the Life @ Microsoft - Software Engineering, Program Management , and Customer Engineers. Miguel Chucharalao is a University Recruiter @ Microsoft. His role is the HSI Hub (+) Campus Recruiter. He also works under the undergrad HR & MB LATAM pipelines. Hannah Fowler is a feature program manager in Identity and Network Access. As a part of her job, Hannah Fowler evaluates customer feedback and needs, participates in feature planning and design, builds product specifications and project timeline , and communicates development progress to the broader team. Wilman Rodriguez is a software engineer on the DSI team. He recommended joining codepath to further develop our technical skills. Wilman also went into depth about the interview process and the coding assessments visa presents to interviewees. Fernando Prado is a customer engineer at Microsoft Federal. Miguel Chucharalo also mentioned that Microsoft is open to remote work. I really enjoyed learning about what it is like to work at Microsoft. In the future, I would like to help develop Microsoft hololens. A question I had for the speakers is how the internal mobility of the company is.
